

EXPLORE A WORLD WHERE KIDS WRITE THE CODE

Code Ninjas San Marino is excited to partner with the Walden School in offering a coding and STEM afterschool enrichment program. Our instructors are programmers, coders, gamers, and STEM instructors all of whom are dedicated to building strong engagement with our Code Ninjas.

Code Ninjas® is the world's largest and fastest-growing in-person kids coding program with hundreds of locations across the United States. At Code Ninjas, our proprietary curriculum teaches kids to code through our engaging game-based curriculum that boosts self-confidence and teaches teamwork, logic, and problem solving.

PLAY THE GAMES. LEARN THE CODE

- The program will be offered for students in grades K – 6th after school. Teachers will take each group to the classroom at their corresponding coding hour.
- Combination of instructor led Coding curriculum and STEM activities.
- JR Grades K – 2nd: Introduction to coding and STEM development.
- CREATE Grades 4th – 6th, Fun, challenging and flexible coding education for developing minds
