

## Online Learning Expectations

Using the Walden Agreements as a foundation, I understand that using electronic devices and the internet is a privilege and not a right and that it is subject to the following rules:

- I will respect the privacy of others online and on all devices I access or use. I will not touch any content or file that is not mine.
- I will not download anything or install apps, games, or other programs on any of my devices without first asking my teacher or family.
- I will never give out private information while online. At no time will I ever give out my last name, phone number, address, or school name— even if I know the person with whom I am communicating—unless approved.
- I understand that I can use electronic devices for approved purposes only, and I understand that what I do reflects my character, upbringing, and family name—and affects my reputation and future opportunities.
- I will not send hurtful, harassing, threatening texts, or inappropriate photos and videos, or make such posts on social media, gaming networks, or elsewhere online.
- I will not say or send anything to anyone using my device(s) that I wouldn't be completely comfortable with teachers or family hearing, seeing, or knowing about. This includes profanity and any offensive language.
- I will not take and/or send a picture or video of anyone without that person's permission.
- I will establish a time for computer device use with my parents and abide by these rules. I will put my computer/device in an agreed upon place at \_\_\_\_\_a.m./p.m.
- If I ever feel uncomfortable about an online experience, I will immediately tell my parents or teachers. I understand that all adults are willing to help me.
- I will share my account usernames and accounts with my parents and teachers as requested.
